# 3R - AGROCARBON

## Newsletter

Knowledge for Bio-Resource Added-value Conversion

**Recycle - Reduce - Reuse**

Issue: November 22, 2011

## Welcome message

Welcome to the first intro issue of the *3R-Agrocarbon and Biochar Newsletter*.

The 3R-Agrocarbon Group is an international scientific and industrial engineering group for business oriented innovative research, development and industrial engineering of added value recycling and reuse of organic waste streams from agriculture and food industry.

**The 3R-Agrocarbon Newsletter is a knowledge based information industrial platform to efficiently convert organic waste into economy. The objective driven goal is the highlight for new possibilities of advanced bio-waste resource competitive conversion, provide economically competitive alternatives versus conventional non-renewable energy systems.**

The 3R is coordinator and key technology designer for the European Union Frame Work programmes (FP5, FP6, P7, CIP-Ecoinnovation) since 2001. Please visit our EU references <http://3ragrocarbon.com/3r-project-references>.

The 3R mission is to provide an advanced, economical and environmentally safe **zero emission pyrolysis process** and **bio-resource conservation** integrated solution. The 3R is opening a unique new perspective for added value recycling and reuse of biomass waste streams into high market demanded **products for green energetic, agricultural and carbon negative environmental applications**, such as bone char based Phosphorus and Nitrogen natural fertilizers and biochar: <http://3ragrocarbon.com/products>.

**The new 3R technology opening new technical, economical, environmental and climate improvement possibilities including integrated CO2 and NOx mitigation as well.**

In the **3R Agrocarbon newsletter** you will regularly find special information on our ongoing European Union projects, the 3R innovative industrial oriented biochar technology, 3R products and commercial applications as well. If you have any questions and/or proposal for cooperation, please do not hesitate to contact me.

Welcome to true partnership.

Sincerely, Edward Someus (General Manager, 3R inventor, EU coordinator)
